REPORT

OFFICE OF ALABAMA INSTITUTION FOR THE DEAF AND DUMB AND THE BLIND,

TALLADEGA, October 2, 1880.

To His Excellency RUFUS W. COBB,

Governor of Alabama:

SIR—I have the honor to submit herewith the twentieth annual report of the Treasurer of the Alabama Institution for the Deaf and Dumb and the Blind, together with the nineteenth and twentieth annual reports of the Officers of said institution. The report of the Building Committee shows the disposition of the funds, carefully saved from the annual appropriations, before the same were reduced. A much needed school building, with a commodious chapel, has been constructed, without the call for a special appropriation from the State. We are endeavoring by close management and rigid economy to save from our reduced appropriation a sufficient sum to erect and furnish a “laundry,” greatly needed by the institution.

In view of the importance and character of this institution, I respectfully suggest to your Excellency the recommendation of a standing committee of the legislature on the Alabama Institution for the Deaf and Dumb and the Blind. This would furnish to the representatives of the people, through their own committee, the most full and satisfactory information as to the condition and management of the institution, and bring it more prominently before the public. The Board of Commissioners and Officers of the Institution specially desire that it be visited, at least once a year, by the Governor of the State and a Committee of the Legislature.

Respectfully submitted.

M. H. CRUIKSHANK,
President Board of Commissioners.

SECRETARY'S REPORT.

To Hon. M. H. Cruikshank,

President of the Board of Commissioners :

I have the honor to submit herewith my report as Principal of the Institution, for the two years past, ending September 30, 1880, together with the report of the Treasurer for the year ending September 30, 1880 ; also, the report of Dr. M. J. Greene, consulting physician, and the report of the Building Committee. The Treasurer's report for the year ending September 30, 1879, is on file in the Executive office.

Respectfully submitted.

J. H. JOHNSON,

Sec'y Board Comm'rs.

October 2, 1880.

PRINCIPAL'S REPORT.

To the Hon. M. H. Cruikshank, President,

and Gentlemen of Board of Commissioners :

I respectfully submit the following report of the progress of the Institution for the past two years, ending September 30, 1880.

NUMBER OF PUPILS.

Whole number of pupils during that time, seventy-five.

Deaf mutes 56

Blind 19—75

A number of others were admitted, remaining only a short time, whose names do not appear on the list of pupils which is appended.

HEALTH OF PUPILS.

We have had little serious illness—one death from pneumonia. Edward Hardaway Burge, of Hale county, died No-

vember 8, 1879, aged not quite sixteen. He was a promising boy and had endeared himself to us all by his amiable qualities.

SCHOOL ROOM WORK.

There has been no change in our corps of teachers, and I take pleasure in bearing testimony to the faithful performance of duty by them.

Our new and well finished and furnished school rooms, add much to the comfort and convenience of teachers and pupils, and we hope to see improvement in the results for the next school year.

THE SHOPS.

The work shops are not as successfully managed as we hope to have them in the future. Efforts are being made to improve our mechanical department. The printing of a weekly newspaper, *The Messenger*, is done by the pupils. In this way we have arranged to have a class of our boys taught to set type and do other work in a printing office. The editors and proprietors of the paper are deaf mutes, educated at the institution.

BUILDINGS AND GROUNDS.

The premises of the Institution embrace sixteen acres. The buildings, consisting of four separate brick houses, and three wood structures, so situated as not to endanger the whole should one be burned, are in good order and amply large for the purposes of the Institution.

One other building, a substantial brick house for a laundry, is now under contract, which will complete the accommodations, as designed by me.

The tin on the parapets and the exposed parts of the wood-cornices of the main building, will require to be painted during the next year. A small amount will have to be expended for drainage near New Chapel Building, and a wire-fence on the east and south sides of the lot. These are all the improvements and repairs I think necessary at present.

The erection and furnishing of the laundry, which has been entrusted to me, has claimed my close attention, and I hope to be able to complete the whole by the first of May next.

We propose to use the "Cambridge Laundry-Machinery Company's" outfit, after a careful examination of a great variety of laundry goods.

I submit herewith a statement of account between myself and the institution. It would seem that I had a balance in my hands of \$2,268.82. This amount is in the Treasurer's hands, to my credit and subject to order for the purpose of building a laundry.

The average cost per pupil, estimating sixty pupils as the average attendance, is about \$212.

J. H. JOHNSON, Principal.

Principal's report of receipts and disbursements for the two years ending September 30, 1880 :

J. H. JOHNSON, Principal, in account with the Alabama Institution for the Deaf and Dumb and the Blind.

		<u>\$17,776.72</u>

REPORT OF BUILDING COMMITTEE.

To the Board of Commissioners :

The undersigned Building Committee, entrusted with the erection of the new school room and chapel building, beg leave to submit the following report.

In the first place, we procured plans and specifications of such a building as we deemed suitable for the purposes of the Institution, making due allowance for a reasonable increase in the number of pupils. The plans, &c., were furnished by George W. Hewitt, of Philadelphia.

After advertising in the leading papers in Montgomery, Selma, Rome, Atlanta and Knoxville for bids, we received only three propositions to do the work.

The bids ranged from \$9,750 to \$14,800. The lowest bid as above was accepted, and the building erected under our supervision.

It is built of first quality pressed brick, trimmed with Stone Mountain granite, and covered with slate.

It is seventy-six feet two inches long, by forty-two feet eight inches wide—three stories high.

It is located east of and a little in front of the main building, fronting the west. It contains six school rooms on the first floor. The second floor is in one room, seated with comfortable benches, with a stage or platform and two small retiring rooms at the east end. The third floor is divided into five rooms, which are used as dormitories. The whole finished throughout in a plain and substantial manner.

The fire-places are filled with open grates, with slate hearths and trimmings. Gas, and water pipes and fixtures, throughout the building. The window-blinds are hung on the inside, and the window-glass and transoms of extra thick glass. The guttering of copper, and the conductors of galvanized iron.

The walls are sand finished, the over-head and cornices of white hard finish.

The whole job was completed in July last—the contract price paid and the receipts filed with your Secretary.

All of which is respectfully submitted.

M. H. CRUIKSHANK,

WM. TAYLOR,

J. H. JOHNSON,

Building Committee.

CONSULTING PHYSICIAN'S REPORT.

To the Board of Commissioners of the Alabama Institute

for the Deaf and Dumb and the Blind:

Gentlemen—The undersigned, Consulting Physician, begs leave to submit the following report.

For the past two years, the pupils of the Institute have enjoyed a marked exemption from sickness. No epidemic has prevailed among them, and but few serious cases of any disease have occurred. But one pupil has died during the period embraced in this report. In this instance, the result was produced by an attack of double pneumonia, which found the constitution of the patient enfeebled by exposure to malarial poison.

This gratifying exhibit is due, in my judgment, to the excellent hygienic and sanitary condition of the grounds and various buildings. And, in conclusion, I may add that with the new, comfortable and commodious hospital, which is complete in all its appointments, we may reasonably hope that sickness and its attendant evils will be reduced to the lowest possible extent.

Respectfully submitted.

M. J. GREENE, M. D.,

Consulting Physician.

TREASURER'S REPORT.

Alabama Institution for the Deaf, Dumb and the Blind,

in account with A. G. Storey, Treasurer,

from October 1, 1879, to September 30, 1880:

THE CONFERENCE AT NORTHAMPTON.

The undersigned attended the meeting of the Conference of Principals of American Institutions for the Education of the Deaf and Dumb, held at the Clarke Institution for the Deaf and Dumb, Northampton, Massachusetts.

The Conference met in May last, during term time. This very liberal and arrangement afforded an opportunity to the delegates to see and study the practical workings of the system of instruction practised there.

Neither signs (as we use them) nor the manual alphabet are employed. Articulation, aided by the system of visible speech (that of Prof. Bell,) and lip reading, are the mediums of communication with the pupils.

Articulation and lip reading, as aids in instruction, are used in many of the Northern Institutions, where the sign method is still in vogue. There are other institutions besides the Clarke, in this country, where articulation is exclusively used, as in the "New York Institution for the Improved Instruction of the Deaf and Dumb."

Mr. Greenberger, the Principal of this Institution, rejects the "Bell System of Visible Speech" entirely. It is still, however, maintained by a large majority of *American* Instructors that the greatest good to the greatest number, can be attained by the continued use of signs, in most cases, or by the use of the combined method—or signs and spoken language used together.

At the recent International Convention of Instructors of the Deaf, held in Milan, Italy, the following resolutions were passed by a large majority:

1st. "The Convention, considering the incontestible superiority of speech over signs—(1) for restoring deaf mutes to social life:—(2) for giving them greater facility of language,—declares, that the method of articulation should

have the preference over that of signs, in the instruction and education of the deaf and dumb."

2d. "Considering the simultaneous use of signs and speech has the disadvantage of injuring speech and lip reading, and precision of ideas, the Convention declares that the pure oral method ought to be preferred."

Thus, it will be seen that there is a wide difference of opinion amongst those engaged in the work of educating the deaf. At the Conference in Northampton, many interesting papers were read and discussed, and the different methods of instruction thoroughly canvased. The writer, though almost entirely in sympathy with sign makers, is constrained to admit that the articulationists had the better of the argument.

The Board of Corporators of the Clarke Institution, together with Miss Rogers, the Principal, and her accomplished corps of teachers, did everything in their power to make the session of the Conference pleasant and profitable. They certainly have faith in their system, and are not afraid to compare results.

J. H. JOHNSON.

LIST OF PAPERS.

The following papers—

The Daily Advertiser, Montgomery, Alabama,

Tri-Weekly Courier, Rome, Georgia.

Southern Argus, Selma, Alabama.

Iron Age, Birmingham, Alabama.

Mountain Home, Talladega, Alabama.

Union Springs Journal, Union Springs, Alabama.

Reporter & Watchtower, Talladega, Alabama.

Wetumpka Times, Wetumpka, Alabama.

Deaf Mute Journal, New York.

Chronicle, two copies, Columbus, Ohio.

Mirror, two copies, Flint, Michigan.

Kentucky Deaf Mute, two copies, Danville, Kentucky.

Good Son Gazette, Staunton, Virginia.

Tablet, Romney, West Virginia.

Texas Ranger, Austin, Texas.

Deaf Mute Record, Fulton, Missouri.

The Silent People, Lake Village, New Hampshire.

Companion, Fairbault, Minnesota.

Raindrop, Pittsburg, Pennsylvania.

Index, Colorado.

The Nebraska Journal, Omaha.

Kansas Star, Kansas.

The Mistletoe, Iowa,

Have been sent to the Institution free of cost to us, and have been a source of pleasure and profit to all. Our sincere thanks are due and are hereby tendered for this courtesy.

ACKNOWLEDGMENTS.

The Board of Commissioners return thanks to the following named railroads, for favors in granting reduced rates of fare to the pupils coming to and returning from the Institution :

The Selma, Rome & Dalton Road.

The South & North Alabama “

The Mobile & Montgomery “

The Alabama Great Southern “

The Alabama Central “

The Montgomery & Eufaula “

Also, to the officers of the Steamer Mary, for free passage given several of the pupils from Mobile to Selma.

APPLICATIONS FOR ADMISSION INTO THE INSTITUTION.

The form to be observed in making application for admission into the Institution may be found in the Code.

Application may be made at any time, and the affidavit signed by any citizen of the State cognizant of the facts. The affidavit may be made in the county where the applicant resides, or it may be made after reaching the Institution, where forms for the purpose are kept in the office of the Principal.

All deaf, mute and blind children of the State, over eight years old, are entitled to the benefits of the Institution free of charge.

Expense of clothing and traveling expenses, must be paid by the pupils or their friends, unless they provide themselves with the certificate of the probate judge of the county in which they live, certifying that they are too poor to provide themselves with the necessary clothing.

Any further information desired, will be furnished by the Principal.

Information is wanted as to the names and post-office address of deaf, mute or blind children, throughout the State, so that they may be urged to attend school.
